IRMA, ALBERTA, FRIDAY, FEBRUARY 28, 1958

SUBSCRIPTION: \$2.00 PER YEAR: \$4.00 U.S. AND FOREIGN

NON-AGGRESSION PACT IN FORCE - New York - The usually accepted meaning of a "cat and dog life" doesn't apply at all to this puss and her cooker friend. There is no trace of hostility, nor shadow of suspicion in evidence as they sit cheek to cheek and turn soulful eyes at the camera. Strange that these "dumb" animals on whom man looks down from his pinnacle of intellect can bury their instinctive animosity and live together in love and trust while man himself lives in constant fear and suspicion of man.

Irma Pee-Wees Blank Wainwright 11-0

On Saturday February 22 a bus load of pee-wees (13 years and under) went to Wainwright Camp to play their first game of this season. First period score was 4-0 for Irma, 7-0 end of 2nd period and it ended up with a 11-0 score.

Local marksmen were Wayne Gwyn with 3 goals; Bobby Hubman with 2 goals and 1 assist; Gordie Fischer with 2 goals; Frank Younker with 2 goals and 2 assists; Robert Jones with 1 goal; Wallace Dunbar, 1 goal, 2 assists; Henry Panton with 2 assists; David McDuff with 1 assist. Two penalties were handed out, both to Irma: George Miller for tripping and Bobby Hubman for elbowing.

Lineup—

Irma: Gary Meier, Dennis Hochet, George Miller, Wayne Gwyn, Henry Panton, Gordon Fischer, Wallace Dunbar, Bobby Hubman, Frank Younker, Gordon Anquist, Robert Larson, Bobby Campbell, David McDuff, Doug Sharkey, Paddy Hubman (goal), Richard Jones (sub-goal), David Glasgow, Dennis Meier, Robert Jones, Alan McRoberts, Arthur Jack, Lorne Anquist, Doug Coffin, Richard Larson, Rickey Guitner.

CHURCH SERVICES

SHARON LUTHERAN
Sunday, March 2nd
Sunday School and Bible Class 2 p.m.
Divine Worship—3 p.m.
Lenten services each Friday evening—8 p.m.
C. Magee, Pastor.

ALLIANCE CHURCH

Sunday: 10:30 a.m. — Sunday School.
11:30 a.m. — Morning Worship.
8 p.m. — Evening Service.
Tuesday: 8 p.m. — Cottage prayer meeting.
Wednesday: 6:30 p.m. — The Alliance Boys' Club.
Friday: 7:30 p.m. — Young Peoples.
L. D. Sheardown, Minister.

Electric headlights on locomotives were first used early in 1886.

Weekly Inspirational Corner

(Sponsored by an Irma Times reader)

For the grace of God that bringeth salvation hath appeared to all men.
Teaching us that, denying ungodliness and worldly lusts, we should live soberly, righteously, and godly in this present world.
Looking for that blessed hope, and the glorious appearing of the great God and our Saviour Jesus Christ,
Who gave Himself for us, that He might redeem us from all iniquity, and purify unto Himself a peculiar people, zealous of good works. — Titus 2:11-14.

Further To Funeral Of V. Hutchinson

We are sorry that the account of the funeral services for Mr. V. Hutchinson were not complete as received last week.

The following should be added: Mr. Hutchinson was a member of the Irma United Church and a regular attendant. Two favorite hymns were sung, "O Love That Will Not Let Me Go" and "Forever with the Lord."

Full bearers were Messrs. Sam Congdon, Verne Sampson, Don McKay, Keith Coffin, R. C. McFarland and Martin Enger. Further donations in memory of Mr. Hutchinson have been received.

To the Protestant Home from Mr. and Mrs. J. Marshall, Mr. and Mrs. Ted Hill.

To the Crippled Children's Fund from Mr. Robt. Hansen.

To the Cancer Fund from Mr. and Mrs. Mike Orzechski.

To the Irma United Church from Mr. and Mrs. M. Cressy, Mr. and Mrs. D. H. Gurn.

To the Star Fund from Mr. and Mrs. P. M. Spring.

To the Cemetery Fund from Mr. and Mrs. L. H. Bars, Mr. and Mrs. R. O. Larson, Mr. and Mrs. Louis Larson and Mr. and Mrs. Erling Larson.

To the Alliance Missionary Fund from Mrs. Mikkelsen and Family.

HAROLD ROLSETH CCF CANDIDATE

Harold Rolseth, Rosalind, Alberta, school teacher, was named the CCF candidate at a nomination convention at Viking on Saturday to contest the Battle River-Camrose federal riding in the March 31 election. Other nominees were Sigurd Lefrud, of Viking, Elmer Borge, of Edmonton, and Alfred Armstrong of Hay Lakes. Lefrud and Roper withdrew, and in a secret ballot Rolseth defeated Armstrong. Over 90 delegates from all parts of the riding besides visitors were present. Mr. Rolseth was the CCF candidate in the June 1957 election but lost in a four party fight for the seat.

Speakers emphasized the need for parity prices for farmers, the pipe line to eastern Canada should be publicly owned instead of promoters making millions even before the gas line was under construction, and the necessity of calling an election as the opposition had given Prime Minister Diefenbaker every opportunity to implement the PC election promises.

Card of Thanks

Many thanks to all the kind friends who sent cards while I was in the hospital and who came to visit me there.
—Charles Olsen.

Card of Thanks

We would like to sincerely thank the staff of the Viking hospital and everyone who so kindly sent cards, letters, gifts and for the friends who came to visit us during our stay in the Viking hospital.
—Mrs. Evelyn Christensen and baby Dale.

The Great Lakes-St. Lawrence River system is navigable for more than 2,600 miles.

Willerton - Tomlinson Vows Exchanged

A very pretty wedding took place in Irma United Church at four p.m. Saturday, February 15th, 1958, when Alice Marie, only daughter of Mr. and Mrs. E. P. Tomlinson of Irma, became the bride of Wm. Bruce Willerton, only son of Mr. and Mrs. N. Willerton of Fabyan, Alberta.

The bride entering the church on the arm of her father who gave her in marriage, was lovely in a white chantilly lace gown featuring a very full floor-length skirt and fitted bodice, with matching jacket of lace featuring lily-point sleeves and tiny covered buttons and pearl beaded embroidered Peter-pan collar. A headpiece of nylon net and pearls held in place her finger-tip embroidered French illusion veil. She carried an arm bouquet of red roses. Pearl necklace and earrings, a gift of the groom, completed her ensemble. Miss Norma Willerton, sister of the groom, was bridesmaid in a pale blue gown of chantilly lace and pet in afternoon length with matching jacket of lace and headpiece of nylon net and sequins. Her only jewelry were pearl earrings, and she carried a cascade bouquet of red and white carnations and fern.

Ruby Anne Willerton acted as flower girl in a pale yellow or-gandy voile dress with white mending trim. She wore a matching halo of tiny white rosebuds and leaves and carried a nosegay of baby mums in yellow and white with white ribbons. The groom was attended by Mr. Norris Tomlinson, brother of the bride, as best man. Mr. George Bacon, and Mr. Eddie Bunting, cousin of the groom, ushered the guests to pews which were marked with white satin ribbons.

The Rev. H. W. Inglis read the marriage vows of the double-ring ceremony, while Miss Della Symington played the wedding music. During the signing of the register Mr. Erling Nelson sang "O Perfect Love."

The reception was held in the basement of the church. To receive her guests Mrs. Tomlinson, mother of the bride, wore a royal blue flat crepe dress complemented by a red felt hat and dark gloves, and a corsage of red carnations. Mrs. Willerton, mother of the groom chose a deep rose flat crepe dress with black accessories, and a corsage of pink and white carnations. Miss Della Symington had charge of the guest book.

The bride's table was laid in white linen cloth and centred by a beautifully decorated three-tiered wedding cake in a host of white net and pink roses. Pink candies and plant bouquets of pink roses completed the setting.

The Rev. H. W. Inglis asked the blessing. Later Mr. W. Symington proposed a toast to the bride to which the groom responded. After cutting the cake, the best man read telegrams of congratulations to the happy couple, one from York, England, from the groom's Aunt Olive, and one from Shawville, Que., from the groom's cousin, Suse. Mr. Erling Nelson accompanied at the piano by Della Symington, sang "Bless this House."

The wedding party left for Wainwright for pictures, returning to Roseberry Hall where they entertained their friends.

For going away, the bride chose a navy bengaline dress with deep rose felt hat, and black accessories; with red roses on corsage. The happy couple left during the evening, upon their return Mr. and Mrs. Willerton will reside on the farm north of Fabyan.

Out-of-town guests at the wedding included Mrs. Ella Skiles, Mr. and Mrs. H. Billerud, Mr. and Mrs. Ole Solberg and Kaye, Mrs. P. Davick of Ryley; Mr. and Mrs. W. Symington and Della, Mr. N. Tomlinson, Miss Shirley Mae Brown, Misses Marion and Lorraine Smallwood, Miss Touchette, Mr. and Mrs. P. Lee and Donna, Mr. and Mrs. C. Barber, Miss Mollie Barber, Mr. Bill Kanewisher, all of Edmonton; Mr. and Mrs. H. Hodgins and Laura of Viking; Mr. and Mrs. D. Barber and Eddie of Vegreville; Mr. and Mrs. J. Tindall, Sedgewick; Mr. and Mrs. Garth Tomlinson, Barrhead.

Glen-Coa Gleanings

Mrs. James has spent a few days with her daughter, Mrs. Floyd Fuder and family, while Mr. and Mrs. H. Fuder and Janice spent the weekend at Red Deer.

The Rev. H. C. Satre and family have moved from Vancouver to Calgary where he is pastor of Faith Lutheran church.

Mr. and Mrs. Carl Gulbrsen and children drove to Calgary on Sunday to spend a day or two visiting Pastor and Mrs. H. C. Satre and family.

Mr. O. Steffensen was a guest of M.L.A. Ruste at the opening of the Alberta Legislature.

Mrs. O. C. Johnson and her son, Gerry of Camrose, paid a visit to the O. Likness household the first of this week.

Sharon Luther League held a very successful box social last Saturday evening, Feb. 22nd. Visitors were present from Edmonton and Hughson. The 16 beautifully decorated boxes brought in over \$50. This fine sum of money is to be sent to the "Unseen Guest" project of the Irma District Luther League. Each League is helping in this way for a Chinese student to attend Luther Seminary at Saskatoon.

Irma Seniors Win Three, Split One In Exhibition and League Hockey

Irma 5, Wainwright 8

The Irma Seniors, having been left in the lurch by Chauvin on Wednesday, Feb. 19, journeyed to Wainwright that same evening for an exhibition game.

In a close, hard-fought game Irma gained a 2 to 1 victory with one goal in the first by C. Prior from McDuff, 5 goals in the second, three of which were scored by R. Lovig from G. Lovig, twice, and W. Wright. G. Lovig scored from Archibald and S. Wright from R. Glasgow. In the last period Gaine scored from R. Lovig, G. Lovig scored on a pass from A. Glasgow and R. Lovig from W. Wright. Irma's last goal went in as the bell for the end of the game sounded.

After some dispute over it, the referee ruled the goal counted. Wainwright scored twice in the first period, 4 times in the second and once in the last frame.

The Irma team was very sorry they were unable to let their

fans know that the game here was cancelled as Chauvin didn't call till that afternoon to say they would be unable to come.

Irma 5, Camp Wainwright 1

Thursday, February 20, Camp Wainwright came to Irma for the last game of the schedule. Irma won a 6-3 victory giving them league leadership with Wainwright Dukes second, Edmonton third and Camp Wainwright fourth.

Irma goals scored by R. Lovig twice with G. Lovig and W. Wright getting assist both times. W. Wright from Prosser, G. Lovig from W. Wright and A. Glasgow from Prosser. For Wainwright, Fallen from Crampston, both goals.

Irma 5, Viking 5

Friday, February 21st, Viking came down to play an exhibition game. In a close, clean game the two teams ended in a 4-4 tie.

Ten minutes overtime brought a goal for each side leaving the final count 5-5. Unfortunately we haven't the list of goals for this game.

Irma 5, Edgerton 3

The first game of the semifinals between Edgerton and Irma was played at Irma on Monday, Feb. 24. The ice was soft, caused the game to be late and rough. The first period scoring brought Irma 3 goals—R. Lovig unassisted, Gaine from S. Wright and G. Lovig from R. Lovig and Gaine. Edgerton went scoreless in this frame and the only penalty went to S. Wright of Irma for roughing. The second period saw more action

with Irma scoring once as Wright from A. Glasgow and R. Glasgow and Edgerton getting 3 markers; Nichol unassisted, Herbert from Ramsey and Ramsey from Herbert. Penalties went to Nelson and Hanrahan of Edgerton for boarding and roughing. Teison scored in the last period and Referee Bill Patterson handed out 4 penalties to Kennedy and S. Wright of Irma and Hanrahan and Nichol of Edgerton. Irma scored 3 goals to leave the final score at 8 to 3. Point-getters in this period were G. Lovig unassisted, Gaine unassisted and S. Wright unassisted.

Speakers predict the following games between these two teams should bring plenty of action so keep an eye out for posters on the next game at Irma.

Mr. George Ford In West Indies

Mr. George Ford, who left Irma for a trip to the West Indies, reports a wonderful holiday. He is taking this trip for his health and we hope it will benefit him greatly.

He reports that for 16c he purchased 3 stalks of bananas and one stalk alone containing 93 bananas. We would be satisfied with less than a nickel's worth.

Mr. Ford plans to return to Irma in April and we hope to hear some more about his interesting trip.

The Weather

The February thaw came last weekend and was most enjoyable. At the end of writing the weather is cooling off again with signs of snow. We do hope it won't get too cold as Fred Ford reports two robins hopping about in the cage-pans on father's farm while Leigh Currie saw a meadow lark last week and sparrows are already working on a nest under the eaves at the home of your local scribe. We wouldn't like to see these trusting birds—not even the sparrows—too badly let down in their belief in spring.

CLIFF SAVILE LIBERAL CHOICE

At a Battle River-Camrose Liberal association nominating convention held here on February 19th, at the Brock theatre, Cliff Savile of Hardisty, was chosen to contest the seat in parliament for Battle River-Camrose federal riding in the election March 31st.

Mr. Saville was the Liberal party candidate in two elections prior to the 1953 election.

An active campaign is planned for Mr. Saville who is well known throughout the riding.

Southern Sayings

Visitors last Sunday at the home of Mr. and Mrs. Ted Hill were Mr. and Mrs. Fred Hill, Mr. and Mrs. W. Boyd, Mr. and Mrs. Clair Lukens and family, Mr. and Mrs. Wes Bacon and family, Mr. and Mrs. K. Gulbrsen and baby son, Mr. H. Boyd, and Mr. L. Allen of Edmonton. The occasion was Donna's 4th birthday.

Another little girl of this district, Phyllis Jackson, celebrated her second birthday last Sunday. Visitors to her home were Mr. and Mrs. A. C. Archibald and family. Miss Colleen Archibald of Edmonton and Mr. and Mrs. Lorne McDuff and family of Wainwright.

Mr. J. Jackson left last Monday for Saskatoon where he is attending a board meeting at the annual convention of Canadian Co-operative Implements Ltd.

The CPR now operates a fleet of 42 "challenger," self-propelled rail cars, second largest of any railway in the world.

KIEFER'S SHOWS at Irma

Wherever war with its black
sway
Or flood, or fire, or famine goes
There, too, go I!

Wherever strength and skill can
bring
Succor to human suffering
There, too, am I!

I go wherever men may
dare
I go wherever women
care
And love can live—

If earth in any quarter makes
Or confidence in human nature
My help I give.

The cross which on my arm I
wear.

The flag which on my breast I
bear.

Are but the sign.
I am the ambassador for you
I do what you would surely do
If you were there.

Wherever suffering is greatest and
danger deadliest . . . there, like the
spirit of God upon earth, move the fear-
less, selfless men and women of the
Red Cross.

Today, with hands outstretched towards
you—they ask your unstinted support
to help them keep alight their lamp of
humanity.

March is RED CROSS Month

ALCOHOLISM SEMINAR SET FOR WHITE ROCK

White Rock Ministerial Association will sponsor a seminar for Sunday School teachers and youth workers at which Mrs. D. Crawford, of the Alcohol Research Council will deal with the subject of the scientific approach to alcohol. —The Surrey Leader, Cloverdale, B.C.

Former Unity publisher enters university at 65

After 25 years as a weekly publisher, John Pletsch, 65, has registered at Haxton College, Salinas, California, as a freshman. He plans to major in engineering.

Pletsch, who retired as publisher of the *San Lorenzo Valley Sun* last July, is believed to be the oldest person to begin a four-year program at Haxton. He hopes to complete his course at the University of California where his son, Clifford, outstanding former Haxton journalist student and honor student is a senior.

A native of Luxemburg, the Santa Cruz man was graduated from agricultural school there and came to Canada in 1919. His first newspaper job was as a compositor on the *Muenster* (Sask.) *Prairie Messenger*. In 1922, he began his publishing career with the *Bruno, Sask.* weekly.

Pletsch later published the

Kindersley

acquires title to

railway reservoir

The final paper work covering the sale of the CNR reservoir to the town of Kindersley (copies of the agreement signed by the railway officials) were examined by the town council at its meeting recently. The papers had previously been signed by the officials and the town. Over a year and a half has elapsed since the town first made an offer to purchase the dam. In the purchase agreement, the town undertakes to give priority to the railway's water needs. Sufficient water must be held at all times to meet the railway's requirements. Apart from this qualification, the town now has complete control of the reservoir and its contents. —The Clarion, Kindersley, Sask.

At the most recent census there were more men than women employed as cooks in Canada.

Wakaw—the back is the same as the front—Recorder, the Kamakoch Times and the Unity Herald, in Saskatchewan. Because of his wife's health, the family moved to California in 1947. Pletsch published the *San Lorenzo Valley Sun* for a couple of years before purchasing the *San Lorenzo Sun*. Pletsch, whose wife died in September, has four children and five grandchildren. His son, Clifford, is the father of three children. He works part time on the *Oakland Tribune* as a rewrite man, a position he assumed upon graduation from Haxton in 1956.

Mr. Pletsch recalls his son's first effort as a newspaper publisher, when at the age of nine, he set type on the linotype and printed his own grammar school paper on the job press in Kamakoch.

"His mother had to take the key away. He was going down at night alone and she was afraid he would get his hand stuck in a hand press or something," the father recalls.

When the family moved to California, Pletsch left his son, then 19, in Unity to continue publishing the *Herald*. Later, Pletsch sold the *Herald* and purchased the

He sold his last newspaper and took a part-time job in the shop of the Santa Cruz County Independent newspaper, which, suspended circulation early last month.

Mrs. Pletsch's death and the loss of his part-time job left him with little to occupy his time. He wanted to keep busy, but felt full-time backshop employment especially stereotypy work would be too strenuous.

John Pletsch will miss the newspaper work, especially the involvement in politics. As he recalls it, "When I had my first paper, I couldn't speak English. In 1925 I was in politics." He may relate some of his experience with political candidates when he writes his memoirs.—The Herald, Unity, Sask.

Dear Bonnie:

Your question about what makes an adjudicator and where one gets the kind of training needed brings up many things to my mind. May I answer the first part of your question?

To be an adjudicator is a very difficult job and requires a wealth of background before taking on this kind of a project. So each fall, in Saskatchewan, a number of people who have had considerable experience and training in directing plays are invited to attend a two day course for adjudicators. We have two such sessions—one in the Northern part of the province, as a rule in Saskatoon, and the other in Regina, for the southern part of the province. They are a week apart. Instruction on what is expected of a director is given by qualified people on the first day. The group see a play in the evening and mark their sheets, writing down their comments for the public adjudication given next morning. Then, before a panel of examiners and the others who hope to take the test, the potential adjudicators adjudicate the play. This is followed by a short evaluation after each entrant has finished and done by his fellow students. They discuss where he has succeeded and where he has failed to keep to the points to be covered. Yes, it is a nerve wracking business but it is the only way we can be assured that the job of adjudicating will be done as well as it can be.

Many of those attending the examination feel they would like to take a second course before going out on their own to do ethical jobs. However, they all plan to attend as many festivals as they can in a season, make their own evaluation and then compare it with the adjudicator's remarks to see where they agreed or disagreed. This is good training and I would suggest that as well as directing your second play this spring, you make an effort to attend as many festivals as possible.

Then you might consider applying for the scholarships that are being made available for short summer courses. Since you are not a teacher, I needn't tell you about the four given by Radio Station CKCK and TV each year. However, a new two week workshop for directors is being planned to take place in Regina starting next August for ten days or two weeks. Merely send your letter asking for further information to me or to one of our fieldmen. (Their location and addresses were given in an earlier letter, pasted in that scrapbook where you have all the letters I have sent you—your Director's lectures you said.) By the way, it is a Director's course and one you might be interested in. The cost won't be high. Registration fee is only \$5.00 and you might invite yourself to stay with your sister in Regina.

But back to what makes an adjudicator. In my last letter, you will remember that I stated the adjudicator must teach not only the director, but the audience as well. To do this successfully, he must be well-informed as a theatre person and have done his HOMEWORK before leaving for the festival. That means reading and studying the playscripts. That is why it is important for directors to send scripts to him at least ten days before the festival. The adjudicator should make notes of the difficulties to be encountered and what he expects from each play. He should also read the rules and regulations of each festival. It has also been recommended that any adjudicator only accept assignments outside his own vicinity as this will give him a more complete independence of outlook when evaluating.

There are several MUSTS that must be taken into consideration by a critic—

1. He must remember that it is for the sake of the audience, of which he is a member, that the play was written and is being performed.

2. The greater his knowledge of theatre by experience in acting

but will only get satisfaction in doing their best and therefore the adjudicator must not spoil this enjoyment.

4. That they have or may not have had any instruction in voice production, stage movement or gestures and if any training, only a little.

5. That festivals do not provide the most favorable conditions for performance and that amateurs find it difficult to adapt themselves to unexpected situations and, sometimes difficult people.

6. Know what to expect from and directing, the better he is equipped to judge.

3. Know from experience the conditions under which most amateur groups work. Long hours after office, school or home which leaves scant time for rehearsal. He must know that they cannot be expected to master technique

ambitions and what to say to them that is likely to be most useful.

7. Must be concerned with the result, knowing that the same play tomorrow or next week may have a different result.

8. Must know what the business criticism involves.

9. Must be able to deliberate and deliberate quickly, knowing the principles he must apply and

apply them quickly—and not flinch from a verdict.

10. Needs knowledge and ability to express himself with propriety as befits the occasion and with respect to the work. Must be able to talk about and answer questions with regards to acting, directing and any production problems. To evaluate any mistakes made by the performers objectively. Weigh each fault, assess the blame on actor or director and come to his conclusion untinged by preference or personal prejudice.

Quite a large task isn't it? It takes training and experience.

In the public adjudication, the adjudicator must have confidence that he knows and loves his subject. That he possesses the authority to deal with it—that he is concerned about the success of the group, imperfect as they may be—that he is not bored, remote, superior or facetious—that he is not there to display himself, his superior knowledge, or emphasize his own point of view.

I can almost hear you thinking "I have heard two adjudicators adjudicate the same play, and they differ. Why is that? Why should the same work receive such contradictory criticism?" It is possible that the critics are not equally competent. Criticism is an intellectual exercise and is bounded by personal knowledge.

Then of course, there may be a difference in what an adjudicator thinks he should be. His own opinion is the thing the adjudicator must judge. I admit that entertainment values and ethical values cannot be ignored entirely, but they should be in a subordinate place. Dramatic Value has three elements—the play, the acting and the production.

Let's define a play first. It is a work of fiction existing in the realm of the imagination, not real life, though based on or related to real life. It consists of speech by characters represented by the actors, through which situations are created resulting in action that is brought to a climax.

In the adjudicator's homework, he must study the play to discern the plot or plan, decide who is the leading character in terms of action, recognize the situations and perceive the climax.

Every author in writing a play wants to say something, leave some thought, make a statement. This is called 'Premise' and by examining the leading character and his problem, the other characters, the dialogue, the situations and to what extent the climax resolves the conflict in the play, the Premise is pointed out. The characters must be imagined as human beings and they are required to convince the audience of their reality. It is with this reality carrying out the Premise that the critic is concerned.

The Adjudicator also considers the type of play and its suitability to the group. He hopes they will use their imaginations and that plenty of research has been done before starting and during rehearsal. He looks for the character drawn by the playwright and recreated by the actor. What resemblance the character bears to the original part as written by the author. He also studies the production with its setting, costumes, lighting and stage management.

"The Play's the Thing" and unfruitful adjudication is that which ignores or belittles dramatic value as a whole. If and when this is understood, we shall have standards or adjudication which will be of great advantage to amateur actors and producers, enabling them to prepare their work with great confidence, knowing they will receive a just and right adjudication.

Hence for five years now, there have been training sessions each fall. Some of those attending decide not to try the examination the first year, but go home and study and come back the next year to try. This we are slowly building up a panel of adjudicators who will help to develop standards by encouragement. The adjudicators are interested in both competitive and non-competitive festivals.

Sincerely yours,
Mary Ellen Burgess

"The Play's the Thing" and unfruitful adjudication is that which ignores or belittles dramatic value as a whole. If and when this is understood, we shall have standards or adjudication which will be of great advantage to amateur actors and producers, enabling them to prepare their work with great confidence, knowing they will receive a just and right adjudication.

Hence for five years now, there have been training sessions each fall. Some of those attending decide not to try the examination the first year, but go home and study and come back the next year to try. This we are slowly building up a panel of adjudicators who will help to develop standards by encouragement. The adjudicators are interested in both competitive and non-competitive festivals.

Sincerely yours,
Mary Ellen Burgess

This ORANGE and COCONUT CAKE is so easy to make!

Prepares
1½ cups, grated orange
rind
½ c. cut-up shredded
coconut
Sift together twice,
1½ c. once-sifted
pastry flour
or 1½ c. once-sifted
all-purpose flour
2½ tsp. Magic Baking
Powder
½ tsp. salt
Cream
7 tbsps. shortening

Gradually blend in
1 c. granulated sugar
Add, part at a time, beating well
after each addition
2 well-beaten eggs
Stir in grated orange rind and
coconut.
Combine
¼ c. milk
½ tsp. vanilla

Add dry ingredients to creamed
mixture alternately with milk,
combining after each addition.
Turn into greased 8-inch square
cake pan, lined in bottom with
greased waxed paper. Bake in
a moderate oven, 350°, 20 to 25
minutes. Frost cold cake with
Orange butter icing.

You get lighter, more
delicious cakes when you use
MAGIC Baking Powder.
Dependable MAGIC
produces all your
ingredients. Buy

Pioneer Lodge ready for applications

At a meeting of the directors of Pioneer Lodge, Swift Current, final plans were put under way for the important preliminary work to the actual opening of the \$500,000 senior citizens home which should be partially occupied, at least, by the end of March or early April.

The meeting, presided over by Chairman Jack McIntosh, heard a report from the allocation committee headed by Leonard Corrigan and adopted its recommendations that application forms to the various municipalities be returned for screening, in order of priority, in time for a meeting in Swift Current on March 15. All applications for admission to Pioneer Lodge must be made to secretaries of municipalities, who have the necessary forms, and this should be done as soon as possible.

In an effort to establish some uniformity in the screening of applicants, the following factors will determine priority: financial, social, age and physical ability.

Rates to be paid by those admitted to the Lodge will be \$60 a month for a single occupant in the main lodge, and where a couple are housed in the lodge, it will be \$82 a month, each. Those occupying quarters in the lodge will have everything provided.

The rate for occupancy in one of the cottages will be \$58 a month for a couple, plus cost of light and water.

The main hostel will accommodate 72 persons and 148 is the capacity of the self-contained cottages, a total of 222 people.

The committee discussed landscaping of the project, which is situated on the Southside. Trees will be furnished and planted by Vern Blanke, well known district farmer, as a memorial to his father, the late Henry Blanke, one of the pioneers in beautification of farms, tree-planting and fruit-growing in this area. This work will be started soon as weather conditions permit.

The Board decided to advertise for a matron and secretary-manager as first members of the official staff to be hired for administration of the project.

The Board has asked all media of publicity in the area to assist in stressing the fact that application forms for the Pioneer Lodge are now in the hands of secretaries and municipalities and at the city clerk's office in Swift Current, and those who seek admission will have to turn in, which in turn, will have to be screened by the municipalities to determine priority. They will then be sent to the committee in Swift Current, which will deal with the applications on Saturday, March 15.—The Sun, Swift Current, Sask.

MEN OF VISION

Men who opened the eyes of the world

ROGER BACON

"Master of the Black Arts"

Roger Bacon, thirteenth century monk, was probably the first man in the world who discovered that people could read better by making the letters look larger with a magnifying glass. Thus he was a remote forerunner of spectacles.

True, most modern spectacles don't rely so much on making things look larger, as clearer. They correct the defects of the eye, so that it sees as it should. Nevertheless, Bacon was on the right track.

No one knows just how Bacon made his wonderful discovery. Perhaps it came in the course of his experiments with alchemy, astrology, and magic. For though he was a hard-boiled skeptic and didn't believe in any of the occult arts of his time, nevertheless they intrigued him, and he thought them worth investigating.

This "show me" attitude was frowned upon in Bacon's day, and it seems that in consequence he spent a good deal of his time in jail. But he could not have given up, if he would, the great idea that had taken possession of him.

In the search for truth, he maintained, men should rely on what their eyes see and what their hands can do with materials. This, in a capsule, is a principle upon which modern science is based, so Bacon was a practitioner of modern scientific method.

The lens which Bacon used seems to have had a curved and a flat side. He describes it as "the lesser segment of a sphere"—that is, less than half. Having discovered what it could do, he declared that it would be "useful to old men, and to those that have weak eyes."

Scientists who came after Bacon have used spectacles to help their eyes work. They wanted to know why. In searching for the reasons, they developed the great science of modern eye-care, which knows how to grind spectacle lenses that will exactly correct most of the natural deficiencies of the human eye.

Scientists who came after Bacon have used spectacles to help their eyes work. They wanted to know why. In searching for the reasons, they developed the great science of modern eye-care, which knows how to grind spectacle lenses that will exactly correct most of the natural deficiencies of the human eye.

HOURLY WAGE
Average hourly wage in Canada last week ending at Oct. 3, 1967, was 166.5 cents, compared to 153.3 cents one year earlier, and 129.2 cents five years earlier.

Fluorine in water here 'ideal'

Fluoridation of water in the town of Lacombe will never become a contentious local issue—because Lacombe's water naturally contains 1.2 parts per million of fluorine, considered an ideal quantity from a dental health viewpoint.

This was reported to members of the local nurses' alumni group by two local dentists, Drs. Murray Boyce and Dalton Desdick.

The dentists reported that analysis of town water showed that fluorine was present in an "ideal" quantity: "Where fluoridation of drinking water is artificially carried out," Dr. Desdick stated, "efforts are made to add from one to 1.5 parts per million of fluorine to the water."

Lacombe's fluorine content at 1.2 parts per million falls midway between these conditions considered best for dental health of children.

The dentists made it clear that the fluorine content of local water will do nothing to improve the dental health of adults, but the teeth of children who are born and brought up here will definitely benefit by the natural fluorine content of town water.—The Globe, Lacombe, Alta.

Indian student wins new scholarship

Tom Stevenson, 22, of the Cowass band, Strathmore, has been awarded a senior matriculation scholarship worth from \$750 to \$1,000 for best senior matriculation student in Saskatchewan. The award was made at the fourth annual conference of Indian and Metis in Winnipeg.

Tom received his early education at Brandon and Birtle. A total of 14 scholarships are being given this year for the first time by the federal department of Indian affairs to encourage Indians to take higher education.—The Express, Broadview, Sask.

NEWLY-HATCHED TROUT—Here, John Marchenko, fisheries officer with the Department of Natural Resources, scoops newly-hatched trout at fish hatchery at Fort Qu'Appelle. This is part of a recent batch of 150,000 brook trout fry destined for planting next summer and fall. Brook trout are not native to Saskatchewan but have already been successfully introduced to several streams, and additional plantings are scheduled to provide a greater variety of angling for Saskatchewan's 100,000 sport fishermen.

STUDENT PRINTERS SEE LARGE EQUIPMENTS IN REGINA SCHOOLS

Three young students of Grenfell High School, currently taking printing training in the plant of the Grenfell Sun, toured printing and publishing establishments in Regina recently. Members of the grade nine class, they are Kathryn Ferch, Arden Hood and Ronald Fehler. They were accompanied by one of the editors.

First stop was Prairie Publishers Ltd., a publishing co-operative owned by weekly newspaper editors in western Canada. There the students saw the production of readyprint, that part of smaller weeklies which is printed in the central plant and used to supplement the local news and advertising. One of the more interesting departments in this plant was the engraving and camera room. There the young printers saw how electronic machines copy the detail of a picture onto a metal plate, engraving it so that it can be used in printing. Three machines were at work, two engraving on metal and one on plastic.

With arrangements made by Dave Rogers of the Leader-Post, the trio were given a "basement to roof" tour of the daily newspaper. Foreman Ernie Rust showed them the entire operation, from the time the copy is placed on the typesetting machines until the finished product rolled off the big press. They saw the type being set, pages being cast, and the solid piece for locking on the high speed rotary press which printed

complete editions at speed of many thousands per hour. Completing the tour was a story in the newspaper about the class by provincial editor Harold Longham, complete with picture taken by staff photographer Joe Thauberger.

While in the same building the class toured the studios of CKCK radio station, saw announcers in action and had their names broadcast to folks at home. Final tour of interest was through Caxton Press, a commercial printing firm where many and varied types of printing presses were in action. Vocational program.

The three students are the most recent in a series of classes which have been conducted in past years by the publishers. Under the Department of Education, high school students may take printing as a subject in recognition of existing establishments. A syllabus is prepared by the department, with specific lessons and texts to be followed. Examinations are periodically written as in any other school subject. The class is not a form of apprenticeship, but a vocational study. No payment is concerned, either to the students or the instructors, who provide the training time and materials.

First girl to take the course, Miss Ferch was impressed during the Regina tour by the percentage of women employed in the printing trades.—The Sun, Grenfell, Sask.

City can afford wage hikes, Union says

The City of Swift Current, could afford to give its employees the 15 percent wage increases recently requested by the Civic Employees' Union without having it effect the millrate, Pat Lanahan, Union organizer, told members of the Union at their second annual banquet meeting held in the Legion Home here. The cost of the increase could be saved, he said, through better organization of departmental administration and the betterment of relations with employees. If workers are to give a full measure of effort, they have a right to be paid in accordance to their job-duties and at a rate that will maintain a decent standard of living, the organizer pointed out.—The Sun, Swift Current, Sask.

PROMOTED—J. V. Forrest, of Fort William, has been appointed general superintendent of the CPR's Saskatchewan district at Moose Jaw, effective February 1, replacing L. R. Smith who has been transferred to Vancouver. Mr. Forrest has been superintendent of the Fort William terminals for the past two and one-half years and an assistant superintendent at Moose Jaw in 1949, and has been with the railway since 1920.

Week's sew-thrifty PRINTED PATTERN

Two main pattern parts—whip up this Grecian-style nightgown in a jiffy. As pretty as it's easy—no hot hand-sewing bows make it glamorous for Christmas gifts. Choose crepe or cotton for this dream of a Printed Pattern.

Printed Pattern 4631: Misses' Sizes 12, 14, 16, 18, 20. Size 16 takes 3 1/2 yards 38-inch fabric. Printed directions on each pattern part. Easier, accurate.

Send fifty cents (\$5c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send coins to:

Anne Adams Pattern Dept., Department F.P.L., 60 Front Street, W., Toronto.

Send fifty cents (\$5c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send coins to:

Peanut Sweet!

Slice it thin, butter it generously and watch it disappear! Here's a tasty new twist bread that's easy to make when you use Fleischmann's Active Dry Yeast. If you bake at home, be sure to bake some soon!

Peanut Butter Bread

1. Scald 1 cup milk
2. In large bowl, combine 2 1/2 cups granulated sugar, 2 1/2 teaspoons salt, 1/2 cup peanut butter. Cool to lukewarm.
3. Measure, measure into bowl 1 cup lukewarm water.
4. In large bowl, combine 2 1/2 cups granulated sugar.
5. Sprinkle with contents of 2 envelopes Fleischmann's Active Dry Yeast. Let stand 10 minutes, then stir well.
6. Stir in lukewarm milk mixture and 2 eggs—beaten.

Work in additional 3 cups (about) unsifted all-purpose flour. Turn out on lightly-floured board and knead until smooth and elastic. Place in greased bowl, brush top with melted shortening. Cover, let rise in a warm place, free from draft, until doubled in bulk—about 50 minutes. Yield—2 loaves.

Needs no refrigeration

Don't Neglect Slipping FALSE TEETH

Do false teeth slip, or do you? When you talk, eat, laugh or sneeze? Do they not seem to hold as firmly as when you first got them? If so, you may be neglecting to have them adjusted. FASTEETH, an invisible non-welding adjustment, fits on your plates, keeps false teeth firmly set. Give your dentures the feeling of security and added comfort. No money, money—just a few minutes. Get FASTEETH today as any drug counter.

YOU CAN SLEEP TO-NIGHT AND RELIEVE NERVOUSNESS TODAY TO-MORROW!
SEDICIN tablets taken according to directions is a safe way to reduce sleep cycles the next morning.
SEDICIN \$1.00-\$4.95
Drug Stores Only!

You can't go ALL-OUT

If you feel ALL-IN!

These days most people work under pressure, worry more, sleep less. This strain on body and brain makes it harder to relax. Today's tense living, crowded conditions, overwork, worry—any of these may affect normal kidney action. When kidneys get out of order, excess acids and wastes remain in the system. These backlogs, disturbed rest, that "frazzled" head—feeling tired, irritable. Time to take Dad's Kidney Pills. Dad's stimulates the kidneys to normal action. Then you feel better—sleep better—work better. Ask for Dad's Kidney Pills at any drug counter.

COMPARING HEADDRESS—A. Subbarayan Singh of the Indian Army compares his traditional Sikh turban headpiece with the Soviet Red Star burmose worn by Sgt. Bruce Dook of Torquay, Sask. Both men are serving with UNEF in Egypt.

—National Defence photo.

Kinsella News

On Thursday afternoon a number of relatives and friends gathered at the home of Mrs. J. Johnston to help her celebrate her 88th birthday. Mrs. Johnston was given a beautifully decorated birthday cake and a fill-up brooch by those present. Wynne Johnston delighted her grandmother by singing several of her favorite songs.

Mrs. R. Stevens is spending a holiday with relatives and friends at Gravelbourg, Sask.

Mr. George Carpenter, student at the A. of A., was home for the weekend.

Mrs. B. Brandon is spending a few days in the city.

Miss Carol Garvie won first in the Search for Talent held at Sedgewick recently.

At the monthly meeting of the W.I., papers were given by Mrs. J. McKie and Mrs. G. Paterson and donations were given to the Polio Fund and to a family in Jarroo who lost their home by fire.

Miss Margaret Murray, who has been taking a nursing aid course in Calgary, is now continuing her course at St. Mary's hospital, Camrose.

Joyce Dobry passed her Theory of Music examination recently with a 90% mark.

Mrs. A. Milne celebrated her birthday last week by entertaining her friends to afternoon tea.

Mr. and Mrs. G. Paterson were visiting Mr. and Mrs. W. Boyd of Irma during the weekend.

WEDDING BELLS

Kinsella church was the setting of a pretty afternoon wedding February 17, uniting in marriage Carolyn Irene Gillespie, daughter of Mr. and Mrs. W. Gillespie of Kinsella and Norman Robert Bonnett, son of Mr. and Mrs. Bonnett of Killam. The double ring ceremony was conducted by the Rev. J. Strapp of Sedgewick.

The bride, given in marriage

by her father, wore a white floor length gown of nylon net and lace which was trimmed with cup sequins and featured three-quarter length sleeves. Her shoulder-length veil was held in place by a matching head-dress. The bride carried a bouquet of red roses.

Her bridesmaid was Miss Helen Hoek of Sedgewick, who wore a ballerina length gown of aqua nylon and lace with a full-skirted skirt with strapless bodice modified with a short sleeved lace bolero, and a matching sequin trimmed head-dress. Her bouquet was tea roses.

Mr. Kenneth Grant of Killam attended the groom and Mr. Allan Bonnett and Mr. Keith Gillespie were ushers.

Miss Carol Garvie sang two songs, "O Paradise" and "Bless This House," accompanied by Mrs. E. Simmons who supplied the wedding music.

The mother of the bride wore a blue arnel tweed dress with a pink rose corsage and the groom's mother wore green with a pink corsage.

A wedding reception was held in the Kinsella hall. The bride's table was centred with a three-tiered wedding cake flanked by vases of flowers.

The toast to the bride was proposed by her uncle, Mr. T. Oakes, which was ably responded to by the groom. Other speakers were the Rev. Strapp, Mr. J. Cair, manager of Killam Indians hockey team and Mr. P. Dion, player-coach of the team. The bride and groom will reside in Killam.

Color of the jackets worn by R.C.M.P. was chosen in deference to the wishes of the plains Indians, who regarded the "Red Coats" of the earlier British Army garrisons in the west as friends and protectors.

In the first 11 months of 1957 exports of goods from Canada had an estimated value of \$4,482 million, imports of goods into Canada an estimated value of \$5,236 million.

The Alberta Legislature In Action

by Ken Mason

EDMONTON—The 1958 session of the Alberta Legislature opened here in the capital last week without any major surprises.

The Speech from the Throne promised a legislative program concerned mainly with increased grants for municipalities, schools and hospitals, and amendments to the Liquor Control Act.

However, for one of the few times in recent years, most of the measures had been announced previously by the government in one way or another, so the speech wasn't exactly a startling document.

No one knew it at the time, but Lieutenant-Governor Dr. J. J. Bowlen was carrying a heavy burden of personal sorrow when he walked into the House to take part in the colorful opening ceremonies. The day before, he received word that his only son had died in Akron, Ohio.

Despite urgings from his family to cancel plans for the opening the governor decided to go through with it. He told no one about his son's death. Premier Manning didn't know until the next day. "It's a hard thing to take, but we have duties that must be done," the governor said later, adding that he wanted nothing to disrupt the House opening.

Dr. Bowlen could easily have turned the job over to the chief justice, but he's the type of man with the courage to want to see a job through, even if it is tough.

The Throne Speech referred to the study of provincial-municipal financial relations, which has been in progress for more than two years, with a view to easing the burden of local taxation.

"To this end, my government proposes to assume a greater portion of the cost of education, hospitalization and various other social services and at the same time increase the amount of direct financial assistance . . . to local levels of government," the speech said.

This is in line with the announced policy of doing away with the program of school and municipal loans in favor of increasing operating grants.

The speech proposed an "improved formula for the payment of school operational grants," and also promised that the pro-

vince will assume the full cost of mothers' allowances and child welfare. Personal property and poll taxes will be abolished.

Reports of two important royal commissions will be tabled during the session. They deal with the possibility of a uniform salary scale for teachers, and with northern development. The speech promised an aggressive program to encourage industrialization, with special emphasis on the north.

Other measures forecast include:

Appropriations for flood control and soil erosion work; more money for prevention of brucellosis in cattle; increased grants for agricultural fairs; a new act governing junior colleges; a study during the coming year into the entire field of mental health services.

A new formula of grants for homes for the aged and infirm; another major highway building program, including more 4-lane divided roads; a major construction program for Alberta Government Telephones.

Legislation to compensate persons who have lost mineral rights on land through errors in the land titles office, and to return mineral rights to those who forfeited them for back taxes years ago when the rights were valueless.

Strengthening of the forest protection system (possibly including the purchase of another forestry aircraft); increased library grants; special assistance to Albertans of proven artistic talent.

More money for land use and conservation projects; a review of irrigation projects to determine future policy.

Changes in the liquor laws, in line with the results of last October's plebiscite, are expected to permit the introduction of cocktail bars and licensed dining rooms on a local option basis.

The session is expected to be somewhat shorter than those of recent years, because Good Friday is early, falling on April 4. Members like to finish the session before Easter, and that leaves only six weeks. It may take plenty of long night sittings to finish within that time.

The House went into high gear this week when Liberal Leader J. Hargreaves opened the Throne Speech debate.

Viking Curling Club Newspaper Car Bingo

The Viking Curling Club is staging a Newspaper Car Bingo, the proceeds of which are going into improvements of the Curling Club.

All members of the curling club will be given 22 cards to sell. Instructions are printed on the reverse side of the cards. One new feature of this Bingo is that the seller of the winning card for the car will be given \$25.00.

There are only 3000 cards sold and no two cards are the same. In the past we have not had time for the car and both cars have gone out of town. Someone here should win it this time.

Ken Hilliker has consented to run the draw each Saturday evening from the stage of the Brock Theatre, and also keep the master card. The first draw is Saturday, March 1, 1958.

Besides the curling club members having cards, business places in town will handle them. The numbers will be printed each week in all the surrounding newspapers.

With 10,378 miles of railway track, but on per capita basis Saskatchewan ranks 1st among the provinces. Saskatchewan ranks 2nd with 8,721 miles of rail lines of any province.

Alberta March Weather Forecast

While the temperatures will average near the seasonal normal in extreme northern Alberta, central and southern portions of the province will have from 2 to 4 degrees below normal. With the dry, cold air quite prevalent in the region, precipitation will generally be below normal in the north, but will average near normal to slightly above in the southern one-third of the province. A cold outbreak scheduled between 2nd and 7th of March will slide mostly eastward, and temperatures will not be extremely low in Alberta—but cold outbreaks between 8th and 10th, and again between 15th and 19th will drop temperatures well below zero over the entire province. Best outdoor working conditions will be noted between 11th and 15th, when temperatures will rise above freezing briefly, and again between 19th and 23rd, when prolonged chinook winds will boost temperatures well above freezing.—Country Guide.

A tall order... FOR ALBERTA FARMERS

Plus

1,250,000 lbs. of Beef

BUTTER

625,000 lbs. of Butter

1,000,000 Loaves of Bread

2,500,000 Quarts of Milk

1,250,000 lbs. of Vegetables

The above estimates are calculated on basis of 1 Million Tourists visiting Alberta for average 5 day period and consuming:

4 ounces of Beef
2 ounces of Butter
1 fifth of a loaf of Bread
one-half pint of Milk
4 ounces of Vegetables DAILY.

3,000,000 SERVINGS OF HAM AND EGGS...

That's what a million visitors a year to Alberta could do towards consuming this province's farm products. Even staying their present average of five days a year in the province, a million tourists would spend \$25,000,000 in retail and department stores, \$17,000,000 in hotel and resort accommodations, \$3,000,000 on entertainment and recreation, \$5,000,000 on refreshments and roadside purchases, \$22,000,000 in restaurants and food stores, \$12,000,000 in service stations and garages (including over \$1,000,000 paid in gasoline taxes), \$7,000,000 on transportation and \$3,000,000 on souvenirs, novelties and many other things.

This is only the primary distribution of tourist expenditures. These first recipients of tourist dollars would in turn go on to buy supplies, pay taxes, and employ labor and thus benefit many other parts of the Alberta economy including farming in particular.

And a million visitors annually is not an impossible goal for a province so rich in scenic attractions. But the first essential is an increasing public awareness of tourist needs.

The visitor industry is YOUR industry

Here are some of the things that YOU can do to assist in the promotion and development in your community:

1. Familiarize yourself with all local activities concerning the tourist industry.
2. Take an active interest in community organizations approved directly or indirectly in tourism.

3. Impress upon representatives in municipal, provincial and national legislative bodies the importance of the visitor industry.

4. Receive visitors to your community in a courteous and friendly fashion and give them all possible information and facilities for the enjoyment of their stay.

Support your local tourist committee!

Viking Figure Skating Club Presents Achievement Night Friday, March 7th

The Viking Figure Skating Club are sponsoring an Achievement Night at the arena on Friday, March 7th, commencing at 8:30 p.m. sharp.

One of the highlights will be the crowning of the Carnival Queen. Three pretty high school girls are candidates—Lois Sheeler, Carolyn Amundson and Diane Knudsen, who are selling votes at 25c each, entitling the purchaser to a chance on a radio.

Another feature will be exhibitions by members of the Hardisty figure skating club, and a game of Pee Wee hockey during the programme.

The local figure skating club was reorganized late this season but many of last year's skaters have shown improvement since last year's performance of "Arabian Nights" which was outstanding.

This year the club has been coached and directed by Miss Sonja Currie of Calgary, C.F.S.A. and U.S.F.S.A. gold medalist; C.F.S.A. silver dance medalist; Western Canadian senior champion, 1951-52-53; Canadian Junior champion, 1953; Canadian Senior Runner-up, 1954. After a bad ankle fracture in July 1950

which made it impossible for her to continue competitive skating, Sonja has decided to embark on a teaching career, and will assist her mother in the operation of the 1958 Summer School.

Achievement Night should be well worth attending and at the same time encourage the youngsters and support those who are working hard in this worthy cause.

Admission: Adults 50c; children over 6 years and students 25c. Make it a date.

Annual Meeting of Ratepayers of M. D. Wainwright Held

The Annual Meeting of the ratepayers of the Municipal District of Wainwright No. 61 was held at the IOOF Hall, Wainwright Alberta on Saturday the 15 Day of February, 1958, as provided for in Section 102 of the Municipal District's Act being Chapter 215 of the R.S.A. 1956 as amended.

At the hour of 1 o'clock in the afternoon the Returning Officer called the meeting to order and asked for nominations for a Chairman of the meeting.

Mr. Hutchison nominated Mr. B. Belanger, no more nominations received, on a third call Mr. Romeo Belanger, again called the meeting to order.

Messrs. Dempsey and Smith—That C. Wilbraham be secretary of the meeting. Cd.

The minutes of the Annual Meeting held 16 February, 1957, read.

Messrs. Ed. Patterson and Smale—That the minutes of 16 February, 1957, be accepted as read. Cd.

Mr. A. C. Archibald, Reeve of the Municipal District addressed the meeting, mentioning several matters dealt with by Council during the past 12 months, including "Construction of the Home for Aged or Infirm Person, Public Works Programme and the General Assessment" concluded 31 December, 1957.

R. Vallee and Kett—That the report of the Reeve be accepted. Cd.

The Report of the Inspector, Department of Municipal Affairs, dated 4 September, 1957, as to the Municipal Office records, deposits and office routine, read.

Battary and Wiese—That the Inspector's report as read be accepted. Cd.

The 1957 Auditor's Financial Statement for the Municipal District of Wainwright No. 61 was read by the Secretary. Messrs discussed page by page and matters of the assessment, just completed, dealt with. Also the comparable assessment for the School Division between Urban and Rural.

At the hour of 3 o'clock p.m., the Returning Officer advised that nominations would be received between the hours of 3 p.m. and 4 p.m. this date for the following:

Municipal Councillor, Municipal District of Wainwright No. 61, for Divisions 5, 6 and 7. Wainwright Municipal Hospital District No. 17, Trustees for Divisions A, B and C.

Irma Municipal Hospital District No. 55, Trustee for Division C. Discussion of the Financial Statement continued with explanation from the Reeve and Treasurer.

Hefren and Tribe—That the Auditor's Financial Statement for 1957 be accepted by this meeting. Cd.

At the hour of 4 p.m. the Returning Officer advised the following, That:

Marvin B. Plaxton elected by acclamation for a term of three years for Division 5, Municipal District of Wainwright No. 61, That:

J. Alex Smallwood elected by acclamation for a term of three years for Division 6, Municipal District of Wainwright No. 61, That:

A. Chas. Archibald elected by acclamation for a term of three years for Division 7, Municipal District of Wainwright No. 61, That:

J. Alex Smallwood elected by acclamation for a term of three years for Division C, Irma Municipal Hospital District No. 55, That:

Harry Lagroix elected by acclamation for a term of two years for Division C, Wainwright Municipal Hospital District No. 17, That:

Albert E. Keit elected by acclamation for a term of two years for Division B, Wainwright Municipal Hospital District No. 17, That:

Nominations had been received from Mrs. Paul Belik, Housewife of Edgerton, Alberta, and Norman E. Gerrioch, Farmer of Heath, Alberta, for trustee, Division A, Wainwright Municipal Hospital District No. 17.

That a Poll would be held on Saturday, the 15 Day of March, 1958, from 9 o'clock a.m. to 5 o'clock p.m.

Hutchison and G. Valleeau—That the Council institute a system whereby a committee of

Jarrow News

A donation toward the M. & M. Fund in memory of Mr. V. Hutchison has been received from Mr. and Mrs. C. Sonett.

Mr. H. Caspar with the assistance of his friends and neighbors is busy building a new home to take the place of the one recently destroyed by fire. There was a good turn-out at the benefit dance last Wednesday evening.

Mr. Charlie Lison of Edmonton visited with the Bovenkamp homes over the weekend.

Mr. and Mrs. Bill Meekins and family, Mrs. Ed. Bruhaag, visited in the city over the weekend with Mr. and Mrs. Leo Mark. G. Meekins and P. Wright are now enjoying Calgary power.

Echo - Rodino

Miss Arlene Wagner of Minburn spent the weekend with Connie Vandervate.

Mr. Ahab Winfield Sr. is a patient in the University hospital in Edmonton.

Miss Florence Landers has been a guest of Lorna Prosser.

The waffle iron raffle at the Albert Valentine dance was not won by any local ticket holders. The proceeds of the raffle went to purchase equipment for the boys' hockey team.

The power was turned on for seven new customers in the Lynx district on Feb. 20. A good deal of excitement ensued over all the new electrical gadgets, including television, in the Shipby home. (So we hear).

It must be spring, with seed catalogues, the arrival of a large flock of baby chicks at the Beckett farm and the mercury rising to 50 degrees, which brought some thawing. However, by the time this script gets to press, we could be under the firm grip of father winter again.

Mr. and Mrs. Del Anderson must be congratulated on the purchase of a new Mercury pickup. A classy job for hauling eggs.

The Winfields have employed a nurse attendant for Mrs. Winfield Sr., which will be a great help for those who have been visiting her home.

Holy Communion for the first Sunday in Lent was held in the school Feb. 23. It was a beautiful spring day for the occasion.

From November, 1956, to November, 1957, Canada's general whole sale price index declined by 1.1 per cent, the price index of industrial materials declined by 7.5 per cent, average per capita weekly earnings in industry rose by 2.5 per cent.

From Dec. 1, 1956, to Dec. 1, 1957, Canada's population increased by 552,000 to a total of 16,860,000; growth in the period was at the record high rate of 3.4 per cent.

the Council set out a road programme being mindful of the correction of crooked and back-sloped roads. Lost.

Mr. Ralph Congdon, Field Supervisor of the Wainwright Agricultural Service Board, advised that his report of the year 1957 was printed in the 1957 Auditor's Report and Financial Statement Breakdown, but dwell on the matters of Tree Planting, Weed Control, Special Projects, Siltage, Pest Control and Bangs Vaccination.

Hefren and G. Valleeau—That the report of the Field Supervisor be accepted. Cd.

Correspondence from Mr. R. J. Wilkinsons, Secretary, Pulecan FUA, containing two resolutions to be placed before the Annual Ratepayers meeting, read.

Resolution No. 1. Gordon and Belle—That be it resolved that a bounty of not less than \$3.00 per head be paid on coyotes killed in this municipality. Lost.

Resolution No. 2. Tribe and Grenier—That be it resolved that a suitable point be established in Edgerton to distribute Flyover and other weed killers, also cyanide guns and cartridges now handled by the Agricultural Service Board. Cd.

Discussion reference to Bangs Vaccination and Blood Testing, Dr. J. M. Saville offered a few suggestions.

No more matters to come before the meeting.

Rustee and Gordon—That this Annual Meeting adjourn. Cd.

Chas. Wilbraham, Secretary of the Meeting.

better

THE UNIVERSITY PROGRESSES WITH ALBERTA

The University of Alberta has seen tremendous growth since its establishment more than 50 years ago. The beginning curriculum was just two areas only, science and the liberal arts, taught at Edmonton. Today every type of professional school is found within its scope. From the initial opening in Edmonton the University of Alberta has extended to other parts of the province. A branch in Calgary, the School of Fine Arts in Banff and the junior college at Lethbridge are all extensions of the University of Alberta. The university, its operation and expansion is another government service maintained for the people of Alberta. Government grants have resulted in the construction of fine buildings for the establishment of a wider range of courses available to students.

UNIVERSITY PLANS FOR THE FUTURE

The University of Alberta continues to expand and grants from the Government of Alberta this year will assist in several large expansion and construction projects. These include a Physical Education Building, a six-storey addition to the Medical Building, a new building for Chemistry and one for Physics and Mathematics. The addition to the Medical Building will provide increased facilities for medicine, dentistry, pharmacy, nursing and physio-therapy. New university buildings are being planned on a 325 acre site in Calgary which was given to the university as a gift from the city.

PROVINCIAL GRANTS TO THE UNIVERSITY OF ALBERTA

Government of Alberta grants to the University of Alberta during the current fiscal year total \$4,521,740. These grants cover the cost of operation of the university and the financing of university building projects.

University construction projects this year received a grant of \$2,170,740 and an additional \$200,000 for furnishings.

The operational grant was \$2,225,000 which with an enrollment of slightly more than 5,000 pupils amounts to about \$500 per pupil attending the University of Alberta.

\$9,000,000 Ammonia plant going with 90 employed

The \$9,000,000 anhydrous ammonia plant of Canadian Industries Limited here, is now in commercial production, J. D. Converse, general manager of CIL's chemical division announced.

The new plant employs the latest industrial techniques for ammonia synthesis and is the only one of its kind in Canada using fuel oil as a raw material. A number of other process features are "firsts" in this country. The plant occupies 10 acres adjacent to the company's "Terylene" polyester fibre plant located on Lake Ontario 13 miles west of Kingston. Daily production capacity is 200 tons.

While anhydrous ammonia is made by the union of nitrogen and hydrogen, the equipment required to do this is extremely complex, and consists of miles of piping, many large reactor vessels and columns and some of the largest compressors on the continent. Essentially, nitrogen is obtained by liquefying air and separating the nitrogen from the oxygen by distillation. Hydrogen is made by combining fuel oil and oxygen in a "Texaco" gas generation unit followed by a number of purification stages. Actual ammonia is produced by catalytic conversion under high pressure.

Process control plays an important role in the safe and efficient operations of the plant. Wherever possible, operations are controlled automatically by instrument panels. Vital process controls are located on a central control panel which is under continuous observation by skilled operators.

When the plant was being planned, major consideration was given to employee safety, fire protection and air and water pollution control. The services of Dr. Thomas W. Beak, Ottawa biologist, have been retained to keep a constant check on pollution control in Lake Ontario near Millhaven works.

The plant has 90 employees and is operated on a continuous basis.

A. A. Perley is plant superintendent and H. M. Sherwood is manager of CIL's entire Millhaven works.

Principal uses of ammonia are in the manufacture of sulphite pulp, nitrogenous fertilizers, explosives, certain synthetic fibres and plastics. It is finding increasing use in extractive metallurgy, manufacture of petroleum catalysts and in the metal treatment field.—The Post-Express, Napanee, Ont.

Softening plant in operation

The twenty-five thousand dollar water softening plant for the Souris waterworks system is now in operation and before the end of the week soft water should be available to all consumers.

The new water rates approved recently by the Municipal and Public Utility Board will also be effective next week.

K. J. Nielsen of Oakshof Filter and Softener Company, who installed the equipment was at the plant Tuesday making the final adjustments. The softening system is fully automatic although considerable attention will be given to the system by the town engineer McKenzie until the system proves satisfactory.

Prior to softening the water shows between 28 to 32 grains of hardness, depending on the season of the year. With the plant in operation the water will be between 3 to 5 grains of hardness.

It is expected that nearly a ton of salt will be used daily to obtain the desired softness.—The Plaindealer, Souris, Man.

DAYLINERS

The CPR now operates a fleet of 43 "dayliners," self-propelled rail diesel cars, second largest of any railway in the world.

ITCH STOPPED

Very first use of soothing, cooling liquid D.D.O. Prescription positively relieves raw red itch—caused by eczema, rashes, skin irritations, chafing—itch through. Greasy, stinging, dry, white, moist, or itchy. D.D.O. Prescription. Ask your druggist for D.D.O. Prescription.

Large acreage threatened by grasshoppers in 1958

The 1958 grasshopper forecast map has been published and copies distributed throughout the forecast area, R. E. McKenzie, director of the provincial plant industry branch announced recently. This is the first year since 1951 that an outbreak of grasshoppers has been serious enough to warrant distribution of the forecast map.

The map shows 663,000 acres of improved land in the severe infestation category, two million acres in a moderate category and six million acres in a light category. About 116 municipalities will be affected. Based on surveys conducted last fall by Canada Department of Agriculture entomologists, the map is a guide to farmers as to what they can expect in 1958. In the past, the forecast maps have proved fairly accurate. Spring weather, however, may increase or decrease the severity of the outbreak. A wet spring can decrease crop losses.

Grow your own Christmas tree

Mr. and Mrs. Jack Lawrence of Grand Forks have hit on a fool proof scheme to keep themselves in Christmas trees for some years and without leaving the house.

This year, when the Christmas trees were brought home it looked a little yellow, so Mrs. Lawrence put it in water. The tree showed signs of recovery turning much greener.

After Christmas, when they went to take the decorations down they found it was growing buds on the end of the branches and seemed intent on staying for a while. So the Lawrences are keeping the tree watered and growing, and come spring hope to plant it in the yard. Then next year, about Christmas, into the house it will come again.

Sounds like it's worth trying.—The Gazette, Grand Forks, B.C.

Insulin is derived from the pancreas glands of sheep, oxen, hogs and calves that are slaughtered.

while a dry spring favors grasshoppers.

To assist municipalities with control campaigns, it is planned to hold a grasshopper control conference late in February, Mr. McKenzie said.

Helicopter gets service at highway station

The sight of an helicopter being set down in front of an east-end Estevan service station caused the staff to blink a little bit recently, but didn't prevent their usual fast and complete line of service to the vehicle.

The staff at the Royale Service Station on Highway 39 at the east end of the city got a real thrill out of complying to the order "fill 'er up and check the oil."

John Collison of Texas set the whirly-bird down in front of the station to take on a filling of 24 gallons of the top grade automobile gasoline and a quart of non-detergent oil.

Collison was ferrying the helicopter from a Texas manufacturing plant to Dawson City, Yukon, where it is to be used in survey work. He had one passenger with him on the trip.

Casey Casswell, Percy Williams and John Collison of the Royale station staff looked after the aircraft's needs, polished the windshield, checked the tire pressures and sent Collison on his way with a cheery "thank you, call again soon."

Collison replied that he would be back again in the near future.—The Mercury, Estevan, Sask.

Wardrobe gem PRINTED PATTERN

4646 WAIST 24"-32"

by Anna Adams

Our Printed Pattern—a skirt that's the gem of your winter wardrobe. It's a smart classic style that goes so beautifully with your blouses and sweaters. Smooth pleats slimming down the front—very easy to sew.

Printed Pattern 4646: Misses' Waist 24, 26, 28, 30, 32 inches. Size 28 takes 1 1/2 yards 54-inch.

Printed directions on each pattern part. Exact, accurate.

National beef grades revised

The Canada Department of Agriculture has announced a revision in national beef grades, effective January 16, 1958. It is hoped that this revision will provide an improved means of interpreting consumer preferences to the producer and also facilitate each quality of beef in finding its own level of value according to supply and demand for it. The use of national grades continues to be optional unless otherwise required by provincial authorities.

This grade revision will split the old grade C, or Commercial, into two grades: Standard and Commercial. Provision is made to subdivide the Commercial into three classes where desired. The letter designation of the grades has been dropped and grade names will be used exclusively. Furthermore, slightly more restrictive standards with respect to excess fat on the top grades is involved.

To what extent the new grade, Standard, may be used in merchandising meat, depends on consumer demand. In view of the consistent consumer trend away from fat in meats it may be that the new grade could meet the requirements of quite a number of people. This standard grade will consist of beef which is equally as youthful as Choice and Good grades, fairly well finished with lean meat and less fat than meat graded as Good. Standard may be slightly less tender than Good but it will also be less wasteful in cooking than the top grades. The ribbon brand mark for Standard grade will be brown.

If in the course of time, any considerable demand develops for this quality of beef in preference to the more highly finished grades, it will be a simple matter for the producer to market his stuff with a lesser degree of finish than that required for the Choice and Good grades.

Then main criticism of the original grades was that the third grade, Commercial, was too broad in scope. At the top end it included older and heavier beef of good conformation with slightly less fat than the Choice and Good grades, and ranged down to include young beef type cows.

SUPPORT LOCAL MERCHANTS

Writing flare?

To stimulate creative short-story writing, the Regina Women's Canadian Club announced a short story contest open to men and women in Saskatchewan.

Eighteen years of age and over. Stories should have Canadian settings and be about 2,000 words in length. Only one story is accepted from each individual.

Prizes awarded as follows: First \$20, Second \$15, Third \$10. Honorable mention will be given to the seven short stories closest to the prize winners.

In the event that stories of sufficient merit are not received, the judges reserve right to withhold any prizes.

Entries must be mailed on or before March 31, 1958, to the Secretary of the Women's Canadian Club, Mrs. G. Murray Thomson, 3075 Metcalfe Street, Regina.

Manuscripts are not returned. Authors may make any desirable use of their stories after decision of the judges has been announced in offering manuscripts for future sale, permission of the contest committee must be obtained before using the club name.

The flag of Denmark is the oldest one in use today.

Scrumptious!

Coffee cake of its best... sweet and scrumptious! And so easy to make with Fleischmann's Active Dry Yeast when you bake at home. Surprise your family tomorrow!

Butterscotch coffee cake

1. Measure into bowl 1/2 cup lukewarm water. Stir in 1 teaspoon granulated sugar. Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast. Let stand 10 minutes, then stir well.
2. Stir together twice, then into a bowl 2 1/2 cups unbleached all-purpose flour, 1/2 cup granulated sugar, 1/2 teaspoon salt, 1/2 teaspoon ground nutmeg. Cut in finely 1/2 cup chilled shortening. Beat until thick and light.
3. Turn out on lightly-floured board and knead until smooth and elastic. Place in greased bowl. Brush top with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 1/2 hours.
4. Punch down dough. Halve the dough. Roll each half into a 9-inch circle and place on greased cookie sheets. Brush each circle with melted butter or margarine. Cover. Let rise until doubled in bulk—about 30 minutes. Bake in a moderate oven, 350°, about 30 minutes. Cool and spread coffee cakes with the following butterscotch icing.

Measure into a measuring cup, 1/2 cup lightly-packed brown sugar, few grains salt, 3 tablespoons molasses or margarine and 4 tablespoons cream; stir over very low heat until sugar dissolves. Remove from heat and work to make up icing of spreading consistency. Stir in 1/2 cup coarsely-chopped toasted pecans and 1 teaspoon vanilla. Yield: 2 coffee cakes.

Needs no refrigeration.

CUNARD'S "BIG 4"

SYLVANIA · CARINTHIA · IVERNIA · SAXONIA

THE HALLMARK OF OCEAN TRAVEL

Enjoy the luxury of crossing to Europe in one of these 22,000-ton Cunarders. Equipped with stabilizers for smooth sailing, these magnificent liners were especially designed for the St. Lawrence River route and form part of the greatest passenger fleet on the Atlantic headed by the world's largest liners, "QUEEN ELIZABETH" and "QUEEN MARY".

Go Cunard and arrive relaxed and refreshed for your business or vacation. WITH THE District Agriculturist

By J. S. Duncan.

Pest Control

Rats still cause concern close to the Saskatchewan border. This expensive pest can be kept under control as long as everyone does his part. Everyone living in the eastern part of Alberta must be on the alert for any sign or suspicion of rats and report anything seen to the local Pest Control Officer who has poison available free of charge. He will also assist with advice on gassing, cleaning up of premises, etc., where such is required.

Coyotes are numerous - also, and while most coyotes cause no trouble, they can take a lot of poultry and the occasional calf and pig. Here again the Pest Control Officer has poisons available free of charge to farmers. Now is the time to think out the coyotes before they start to cause trouble.

Garden Vegetables and Flowers:

Seed catalogues are beginning to arrive in the mail again so it won't be long until we start thinking about gardening again. There are lots of varieties of vegetables to choose from and the pictures all look lovely. In spite of this some varieties are more suitable than others, particularly when it comes to freezing them. The Alberta Horticultural Guide gives good advice on varieties for different parts of the country and rates them for suitability for freezing. This applies to both vegetables and fruit. Pick up or write to the office for a copy of this bulletin.

Hay and Pasture Crops:

Hay and pasture are both very important when cattle or sheep are being raised. Grasses and legumes are also referred to as soil building crops because they improve the land they are grown on and result in better grain crops after the land is broken again. A mixture of grasses and legumes yields more and is better feed than straight grass. Seed prices are lower this year so now is the time to decide what you want to sow and get your seed ordered. You can deliver grain over quota to pay for forage seed. Drop into the office to talk over the best mixture for your land.

THE Homemaker

By Edna M. Craig,
District Home Economist

Hello Homemakers

Three Short Courses are being held in this district this winter. The following points are to have these courses:

Vermilion—March 5, and 6 at the School of Agriculture.
Manville—March 5, 6, and 7 at the Elks Hall.
Chauvin—March 11.

Topics of interest to rural homemakers will be featured at these courses. Among the subjects to be discussed are kitchen planning, costume selection, use of sewing machine attachments, hair care and floral arrangements. Besides lectures, discussions in which all participate will be included.

These courses I feel will be of value to any homemaker who is able to attend. Programs have been printed and will be available for anyone wishing further information. These are available on request from my office or the office of the District Agriculturist.

Nominations for Councillors in County of Beaver

Div. No. 1—William D. Johnston; Archibald G. Smith.
Div. No. 2—John P. Roznabel; Archibald H. Stewart.

Div. No. 3—William A. Dorin; Beauchamp Beach Stacey.
Div. No. 4—Walter Grosland; Walter Kropelnicki; Anton Semchyshen.

Div. No. 5—Arthur L. Gibson; George Hunchak.
Div. No. 6—Ole Hagen; Edwin M. Magnusson.

Div. No. 7—Charles W. Sears; Harold Westhill.
Election day, Saturday, March 1st, 9 a.m. to 5 p.m.

EASTERLY ECHOES

Battle River Ladies Club will meet at the home of Mrs. W. Veer, Thursday, March 6 at 2:30 p.m. Hostesses, Mrs. Veer and Mrs. Fenton; Draw, Mrs. Dempsey; Program, Mrs. Cook; Roll Call, Rev. who our last year W.I. friend.

Birthday greetings to Mr. Joshua Holt who celebrates March 6th.

Mrs. Veer and Mrs. Cook took part in the Ladies' Bouspiel in Wainwright last week. Mrs. Veer came home with 1st prize in the 3rd event (sheets).

Mr. Eldon Fenton came home from the Sedgewick bouspiel with 1st prize in the 2nd event (a jumbo sweater).

Mr. Bill Whitley and Mr. Bill Ewert had a birthday party at the B. Ewert home Friday.

Fifty-five children and twenty-nine adults turned out for a skating party at Jack Savard's on Sunday.

Mr. and Mrs. R. Dempsey were Edmonton visitors on Friday.

Notice to Creditors and Claimants

IN THE MATTER OF THE ESTATE OF ALBERT VICTOR HUTCHINSON, LATE OF IRMA, in the Province of Alberta, merchant, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Albert Victor Hutchinson who died on or about the 7th day of February A.D. 1958, are requested to file with undersigned by the 12th day of April, 1958, a full statement duly verified of their claims and of any securities held by them, and that after that date the executors will distribute the assets of the Deceased among the parties entitled hereto, having regard only to the claims of which notice has been filed, or which have been brought to their knowledge.

Sigurd Lefarud,
Solicitor for the Executors,
Viking, Alberta.

Set for March 2nd Red Cross Sunday

Sunday, March 2nd, has been designated as "Red Cross Sunday" throughout Alberta with Saturday March 1st, set as "Red Cross Sabbath". Each year the Sunday nearest to March 1st, opening date for the annual Red Cross campaign for funds, is selected as "Red Cross Sunday" with clergy of every denomination invited to mention the work of Red Cross either from the pulpit or in church announcements.

included in the minutes of this meeting. Cd.

Hill—That we adjourn. Cd.
Next meeting to be held on Friday, March 7th beginning at 9:30 a.m.

Local News

At Wainwright ladies' bouspiel last week, Mrs. A. C. Milne, Mrs. C. Anquist, Mrs. Albert Firkus and Mrs. Wm. Veer won first prize in the 3rd event and came home with four pairs of beautiful sheets in pastel colors. Mrs. P. H. Funk says it should be Mrs. Albert Jackson's name mentioned in the Card of Thanks published last week.

We are glad Mrs. Funk is home from hospital and feeling better.

The Women's World Day of Prayer service as sponsored by the Sharon W.M.F. was well attended on Friday last and greatly enjoyed.

Miss Joyce Cook of Edmonton is holidaying here at the home of her parents, Mr. and Mrs. A. Cook.

Little Shelley Cowper of Edmonton came down to Irma with Joyce. Shelly is visiting at the home of her grandparents, Mr. and Mrs. C. Pyle.

Mr. and Mrs. J. J. Jackson have just returned from a good holiday at the coast. While at Vancouver they called on Mr. and Mrs. J. N. Carrington and Mr. and Mrs. A. W. Burton. In the latter's garden, snowdrops and crocuses were in bloom while buds were on the roses and daffodils and the grass was beautifully green. The Jacksons also visited a niece who lives at Edmonton, Wash. This trip included both bus and boat travel which they found very pleasant.

There are some nice new jumbo sweaters about town this week. These were won by Messrs. C. Milne, D. McKay, E. Fenton and C. Anquist who won 1st prize in the second event at the Edmonton bouspiel.

Mr. and Mrs. R. A. McFarland and Lynne and Mrs. R. C. McFarland were Edmonton visitors this week.

Mr. and Mrs. J. Templeton and children have taken up residence in the Theroux house here. Mr. Templeton is employed with the Northwest Utilities.

Mrs. Vera Prior has completed her hairdressing course in the city and has returned to Irma.

Mr. and Mrs. Bill Cody and family of Wainwright and Mr. and Mrs. Bill Routledge and boys of Loughheed visited at the Art Gwinn home last Sunday.

Mr. and Mrs. Herbert Larson and family of Strom spent Sunday with Mrs. Melholt and Berber.

The United Church W.A. will hold a Bake Sale in the Irma Food Market on March 8th. Mrs. Ken Teeter and son Darrell of Galt Edge spent last weekend at the home of her parents, Mr. and Mrs. Martin Enger. On Sunday, accompanied by Mr. and Mrs. H. Riley, they motored to Camrose to visit with Mrs. Bertha Enger and Mrs. G. Watkinson.

Mr. F. M. Hill of Irma has again been elected to the Board of the Wainwright School Division. He was also re-elected to the post of Chairman and will be a member of the finance and building committees.

Mrs. Colleen Archibald of Edmonton was a weekend visitor at her home here.

There will be a Pony dance in the north community hall on Friday, March 7th.

The OORP ladies of the Royal Purple Lodge are sponsoring a Tea and Bake Sale at 3 p.m., March 15th in the Legion hall.

Messrs. C. Pyle and F. Valerie have returned from their motor trip to the coast and report an enjoyable time. Christie found his father Mr. F. Pyle very well and enjoying life. Mr. Pyle sends his best regards to all his old friends at Irma.

The Irma W.I. meeting will be held on Thursday, March 6 at the home of Mrs. D. Gunn. Refreshments: Mrs. Rattray, Mrs. W. Hubman; Hostesses—Mrs. McFarland, Mrs. Jones. Visitors welcome.

In Memoriam

In loving memory of my Dear Son, Edgar Herber, called home March 28, 1951.

"Rest in peace Dear Son, It's sweet to breathe your name. In life we loved you dearly, In death we do the same."—Ever remembered and sadly missed by his mother, brother and sisters.

By steamer from Halifax to Bristol, is 2,400 miles; by rail from Halifax is 3,400 miles.

FROM FERTILIZED FORAGE \$15 MORE PER TON!...

Protein is essential for meat and milk production. A ton of unfertilized grass hay contains approximately 100 lbs. of protein. Application of high analysis Elephant Brand Fertilizer can double this figure to give you 200 lbs. of protein in every ton! Most protein feed supplements contain 32 per cent protein, and cost up to five cents per pound. On this basis, the increased protein content resulting from the use of Elephant Brand adds \$15 to the value of every ton of forage... plus extra profits from faster growth and more abundant yields!

See your Elephant Brand Agent for these high analysis products:
AMMONIUM PHOSPHATE 11-45-0 AMMONIUM SULFATE 11-20-0
AMMONIUM PHOSPHATE-SULFATE 15-25-0 NITRAPHOS (Ammonium Nitrate) 31-0-0
AMMONIUM NITRATE-PHOSPHATE 23-25-0 COMPLETE FERTILIZER 16-20-10
AMMONIUM NITRATE-PHOSPHATE 27-14-0 ANHYDROUS AMMONIA (NH₃) 82-0-0
